## Social Security and SSI: The Affordable Rent Gap in Florida

Social Security benefits provide vital support for Florida's retirees and persons with disabilities. Over 3.18 million Floridians receive Social Security retirement benefits averaging \$1,353 per month. Nearly 272,000 Florida nonelderly adults with disabilities receive Supplemental Security Income (SSI) benefits of $\$ 733$ per month.

For older adults and persons with disabilities seeking to live independently, these benefits provide a lifeline. However, they do not meet the costs of one of the basic components of independent living: an affordable apartment. Housing is generally considered affordable if it costs no more than 30 percent of income. This equals $\$ 406$ per month for the average Social Security retirement benefit and $\$ 220$ per month for the SSI benefit.

A typical studio apartment in Florida costs $\$ 736$ per month and a one-bedroom unit costs $\$ 850$ per month, well above the affordable level for Social Security recipients (Figure 1). In fact, the entire SSI benefit falls short of these rent levels.

The Floridians most affected by this gap are renters who rely on Social Security for most or all of their income. Statewide, over 92,000 elderly renters live alone and list Social Security benefits as their sole source of income. Nearly 23,000 nonelderly adults with disabilities list SSI as their sole income source.

## The rent gap extends throughout the state.

As Figure 2 shows, market rent for a studio apartment exceeds the affordable rent payment for Social Security retirees and SSI recipients in every county in the state. The rent for a one-bedroom apartment exceeds the entire SSI benefit in 26 out of Florida's 67 counties.

## Assisted housing helps close the gap.

Assisted housing developments provide affordable rental units through subsidies from local, state, or federal government. Florida's assisted housing inventory provides 67,565 units with below-market rents for elderly households and 3,023 units for persons with disabilities.

As Figure 3 shows, average rents in assisted housing units are much closer to the affordable rent levels for Social Security recipients than market rents.

Figure 3. Social Security Affordable Rents, Assisted Housing Average Rents, and HUD Fair Market Rents, Florida

## Data Notes

- Social Security retirement benefits are provided to workers who paid Social Security taxes while working and have reached retirement age ( 62 for early retirement, 65 for full benefits). Average benefit levels come from the Social Security Administration's OASDI Beneficiaries by State and County, 2016 report.
- Supplemental Security Income (SSI) provides cash assistance to people who have limited income and are disabled, blind, or age 65 or older. This fact sheet focuses on adults age 18-64 receiving SSI due to disability. Benefit levels are the same for all recipients statewide. The 2016 SSI benefit amount and number of beneficiaries in Florida come from the Social Security Administration's SSI Recipients by State and County, 2016 report. Statistics on Social Security and SSI as the sole source of income for renter households come from analysis of the 2016 American Community Survey.
- Market rent levels come from 2016 HUD Fair Market Rents (FMRs) for counties and from the National Low Income Housing Coalition's Out of Reach: Florida 2016 Archive for the statewide average.
- Average assisted housing rents in Figure 3 come from the Shimberg Center's Assisted Housing Inventory. "HUD, Elderly" and "HUD, Persons with Disabilities" figures refer to average tenant-paid rents in developments with project-based assistance from the U.S. Department of Housing and Urban Development. "Florida Housing, l BR" figures refer to average tenant-paid rents for l-bedroom units in developments funded by Florida Housing Finance Corporation. The "w/Elderly Household" column refers to units with at least one occupant age 62 or older.
- State- and county-level data from Figure 2 are available for download from the Florida Housing Data Clearinghouse.
